OBJECTIVE:

To associate with an organization that provides me an opportunity to use my interpersonal skills and to pursue a challenging career that will enhance my knowledge and skills by adopting a learning approach. I would like to build a successful career in your industry that offers professional growth.

PROFESSIONAL SUMMARY:

- Having overall **6** months of experience in Analysis, Design, Development, Research and Implementation of Web Applications.
- Good experience in developing applications using JAVA/J2EE technologies like Java, **JDBC, Servlets, JSP, Spring IOC, Spring MVC, Spring Boot, Spring Data JPA, Spring ORM, Restful Services, Design Patterns, MVC and Micro Services**.
- Experience in developing front-end User Interfaces using **JSP, HTML, CSS, Bootstrap, JavaScript**.
- Made use of OOPS characteristics like Abstraction, Encapsulation, Inheritance and Polymorphism for best practice coding.
- Experience in Database Design and Database Programming (Stored procedures, Function, Triggers) using MySQL.
- Excellent analytical and programming abilities in using technology to create flexible and maintainable solutions for complex development problems.
- Having experience in providing in-house trainings.
- Having experience as a mentor for interns.
- Excellent team player and ability to adapt to changes quickly and efficiently.
- Excellent analytical and programming abilities in using technology to create flexible and maintainable solutions for complex development problems.
- Good in **Java 8** topics also **Interface Enhancement, Functional Interface ,Method Interface, Predicate, Lamda Expressions, Stream API's**

Technical Specialization

Core Java
Java 8
J2EE
Spring
Spring Boot
Spring JPA Rest
API
Micro Services

Database:
   MySQL
   ORACLE

Frontend:
   HTML
   CSS
   Bootstrap
   TypeScript
   JavaScript
   React Js

EXPERIENCE SUMMARY:

Working as Software Engineer Intern with Sookshmas E-Learning Pvt Ltd from JUNE-2023 to till date.

TECHNICAL SKILLS:

Java Technologies: Java, JDBC, Servlets, JSP.

Java 8: Interface Enhancement, Functional Interface, Method Interface, Predicate, Lamda Expressions, Stream API's

Distributed Technologies: Restful services.

Frameworks: Spring and Spring Boot and Micro services.

UI Technologies: HTML, CSS, BootStrap , JavaScript, React Js.

Database: MySQL, ORACLE.

Web/App server: Tomcat.

IDE: Eclipse, STS.

Operating System: Windows.

Tools: Maven, GIT.

EDUCATIONAL QUALIFICATION:

B.TECH in the stream of CSE in Siddharth Institute of Engineering and Technology, Puttur under JNTUA.

PROJECT DETAILS:

Project # 2: Event Management Website Duration: August – 2023 to till date
Technologies and Tools: Spring Boot, Angular, Java Mail API, HTML, CSS, JQuery, Bootstrap, Git, MySQL.
Industry: Education Team-Size:
2

Description:

It is online based Event Booking Application for End Users/Customers. Customers can register, login and search pet products based on category. They can add events to cart and payment using different channels. This is implemented as a website using HTML, CSS, MySQL, JavaScript, JDBC, Servlets.

Responsibilities
- Involved in gathering the requirements, analysis, design & development of the project.
- Developed webforms using Angular, Html, CSS, Bootstrap, JQuery.
- Developed classes using MVC patterns.
- Design and developed database schema.
- Responsible for bug fixes.
- Responsible for API testing using Postman.
- Developed Test cases.

Project # 1: **Pet-Hub**
   Duration: July - 2023 to Sep - 2023
   Technologies: Java, Servlets, Jsp, Jdbc , HTML, CSS, JQuery, Bootstrap MySQL.
   Industry: E-commerce Team-
   Size:2

Description:

   It is online based Pet-Products Booking Application for End Users/Customers. Customers can register, login and search pet products based on category. They can add items to cart and payment using different channels.

Role in Project:

- Involved in Planning, Design and development of the application.
- Involved in implementing database design and structure.
- Responsible for developing Web forms.
- Developed classes using MVC patterns
- Responsible for bug fixes.
- Developed Test cases.

I hereby declare that all of the details furnished above are true on the best of my knowledge and belief.
